ALBANY George Hawley Page of Hollywood Avenue in Albany, passed away peacefully on January 12, 2015 after a long illness. He was predeceased just eleven months ago by his beautiful and loving wife of 58 years Marie Page. George was the son of the late Henry and Lois Page and brother of the late Mary (Robert) Berning. He was born and grew up in Sherrill New York and was awarded a full music scholarship to the prestigious Manlius Pebble Hill School in Manlius, New York. George was a veteran of the National Guard and worked selling insurance before becoming employed by the State of New York. It was here that he worked for many years and eventually retired from. George was an extremely gifted musician who brought much joy to others through his music. Back when his sons Tom and Ed lived at home, they together formed a band called "Page 3" They performed at many weddings, high school dances and other special events. Later on, he played with the band known as the Candlelight Trio for which he was extremely proud. He taught private music lessons from our home for many years. I thank my father for my appreciation and love for jazz music by some of the greats like Glenn Miller and Benny Goodman. George enjoyed gardening for many years and loved nothing more than sitting on his deck in the summertime listening to his all time favorite Fox News on the radio.
